 Phone: (330) 630-7000 Ext.: 3358  
 Fax: (330) 633-7640

Disposal of 12,415 gallons of PCB fluid in Steubenville, OH.  
Disposal cost \$6.75 per gallon; 12,415 gal x 6.75 = \$83,801.25.  
Associated transportation and draining costs \$8900.00.  
Total job cost \$92,701.25. We recommend a site survey to determine  
the best course of action for your client and to explore all options.  
Please note: The EPA requires proper disposal for all PCB and PCB  
contaminated transformers at the end of their service life. Draining  
your transformers and leaving them empty constitutes the end of their  
service life. You should contact the EPA to find out how long they  
will allow the empty carcasses to remain on your clients property.  
In most cases you have one year in which to dispose of the carcass.  
but you should contact the EPA directly to ensure you remain in  
compliance of all applicable laws.

## Additional Information

1. Payment is net 30 days, unless otherwise specified.
2. All orders are subject to credit approval. Minimum order is \$500.00.
3. This estimate is valid for 45 days from date issued.
4. Outside carriers must be preapproved by S.D. Myers, Inc. and provide proof of insurance.
5. Transportation and draining services are available, but not included unless noted.
6. Rigging and loading of material is the customer's responsibility.
7. Delays in excess of two (2) hours will incur charges of \$80.00 per hour.
8. Requests for special personnel accreditation and/or training will incur additional charges.
9. Requests for special shipping requirements will incur additional charges.
10. Invoicing will be based on actual gross weight, PCB levels, and distance traveled, if applicable.
11. Retrofilled askarel transformers will be charged at >5000 ppm PCB disposal rates.
12. S.D. Myers, Inc. maintains insurance for its equipment and the joint/sole negligence of its employees ONLY.
